

Royal Infotech

Solutions for your Success

About us:

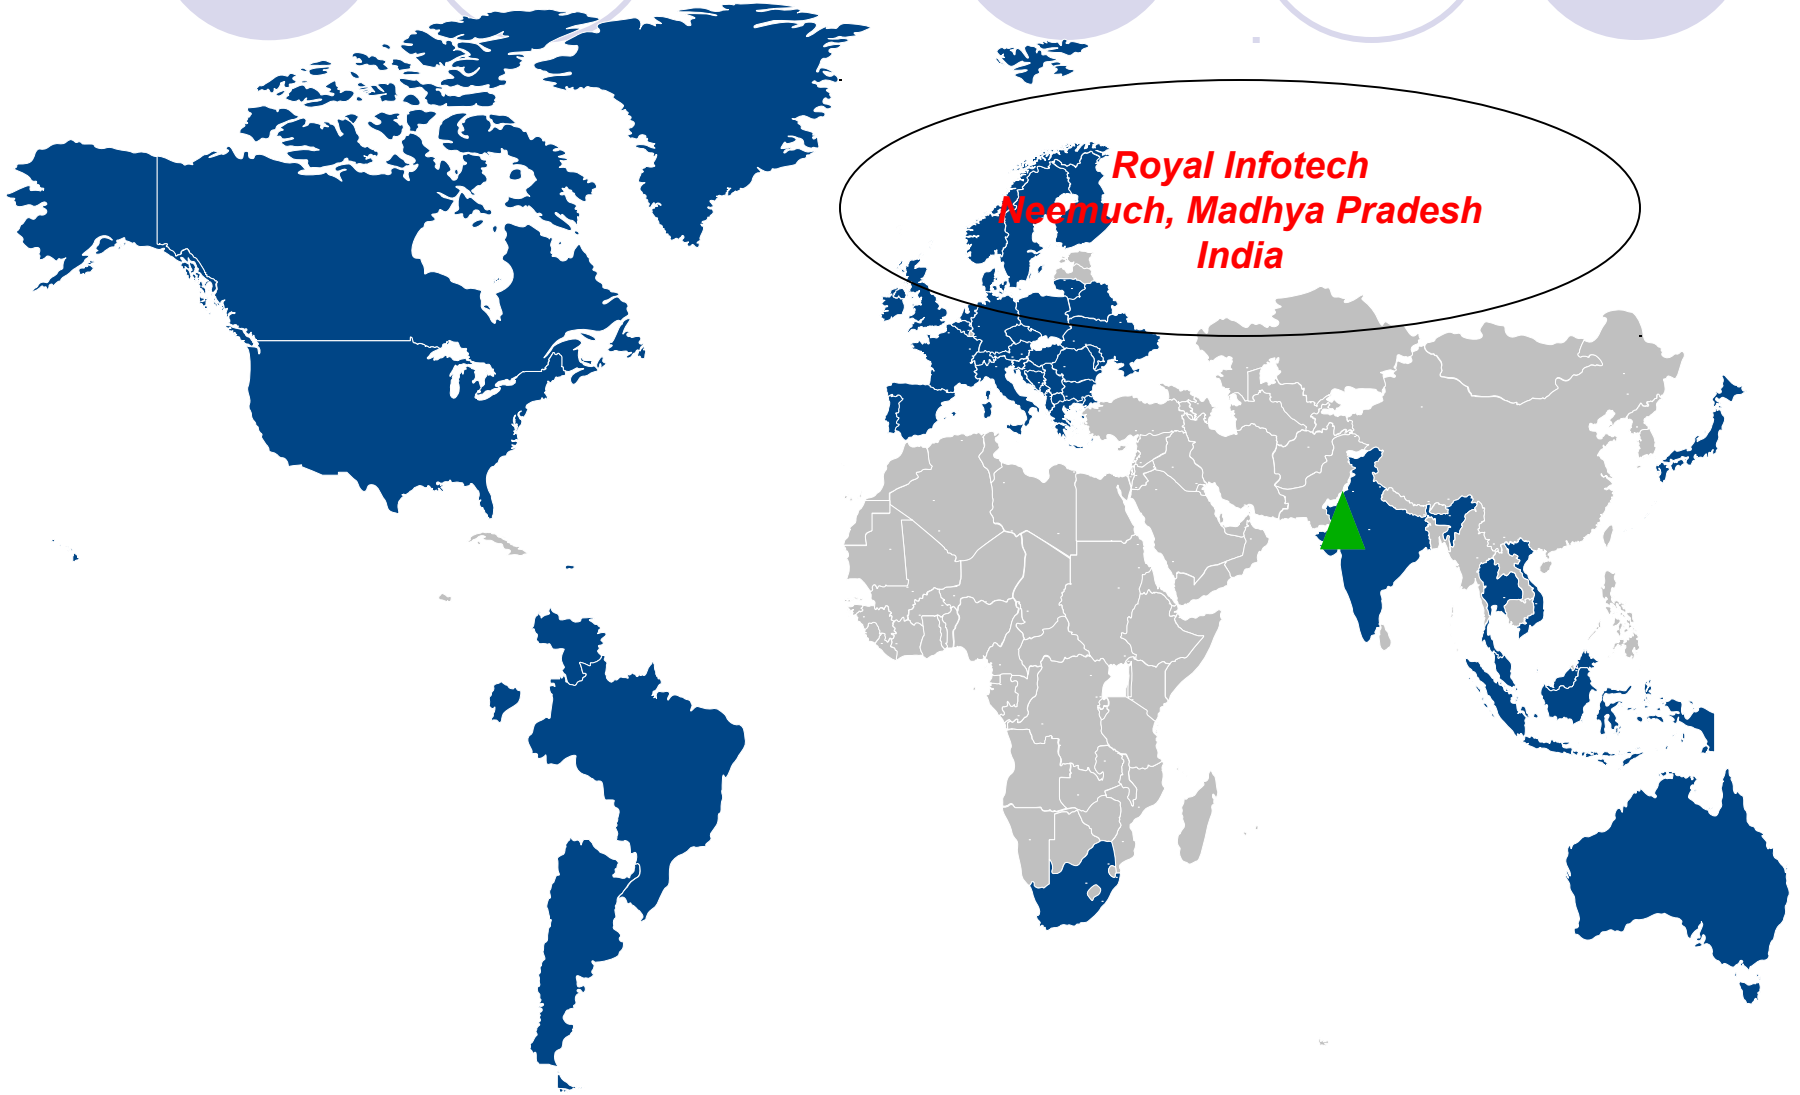

- Royal Infotech is one of Asia's primary providers of logistics and inventory solutions to the IT service marketplace.
- Royal Infotech provides services and equipment to all IT sectors, OEM's, TPM's and End Users.
- Our activities are focused to reduce the inventory investment requirement of our customers, whilst they maintain market leading SLA's.
- Royal Infotech can effectively plan and stock your requirements at no committed cost. The combination of this level of inventory investment and distribution has enabled
- Royal Infotech to become the preferred supply partner for many leading service innovators

Company History:

- Founded in 2014 by CEO Rahul Mehta, Royal Infotech grew from being a supplier of printer parts to being a leading provider of an entire range of spare parts for OEM's, VAR's, Integrators, TPM's and Distributors.
- Royal Infotech solutions are unequalled in the industry and are all backed by the brand of service and support our customers have come to expect. This includes comprehensive warranties, same day shipping and free technical support.
- Royal Infotech learned at an early juncture that success is gained through honesty, attention to detail, consistent quality, reliability and confidentiality.

Global Presence

Quality:

- Royal Infotech performs to ISO9001 Equivalent and the complete Royal Infotech Quality Manual is available for inspection.
